About Company

Kiryukhin & Partners Law firm is a dynamically developing company at the Russian market of legal services. We render legal services to Russian and foreign companies in key areas of business activity.

One of the main indicators of the quality of our work is the fact that 90% of our new clients come to us based on recommendations from the current clients.

Our team includes lawyers, law specialists, patent experts and patent attorneys. The average practical experience of our employees is 10 years. We actively work on public platforms, in specialized united organizations and associations. The company's working languages are Russian and English.

Practice of intellectual property protection.

The main areas in intellectual property protection are:

- 01 Law inspection of intellectual property (IP) objects.
- 02 Estimation of IP objects protectability.
- 03 Recommendations on obtaining legal protection for IP objects: objects of copyright and related rights, including ECM programs, databases, objects of patent Law, means of individualization.
- 04 Preparation and submission of applications to register the results of intellectual activity and means of individualization (trademarks, industrial designs, ECM programs, and databases), registration support, office work.
- 05 Introduction of intellectual property objects in the customs register, import control.
- 06 Comprehensive programs of fighting against piracy and plagiarism.
- 07 Termination of legal protection of patent Law objects and means of individualization.

Practice of intellectual property protection.

Main areas of the Law support:

- 01 Development of local contractual documentation within the company, building contractual relationships with employees and contractors (third parties) in the process of creating intellectual property objects.
- 02 Cases of merges and acquisitions: IP estimation, corporate support, granting the right to use and / or alienation of exclusive rights.
- 03 Contractual work (development and analysis):
 - license agreements;
 - author's commissioning agreements;
 - alienation agreements and agreements on pledge of exclusive rights;
 - agreements on commercial concession (franchising);
 - agreements on rendering services and agency agreements, complex contracts.
- 04 Development of documentation on personal data protection.
